

## Installation Guide

### WN5212DP

Due to the large size and weight of the item, product comes with separated packages without assembly to prevent damage during shipping. This document provides package contents, tools required information, and installation steps for users to assemble the product.

**Tools required: Hex wrench, Phillips screwdriver**

#### Package contents:

**BOX1:**  
4x Posts, 4x Scale Posts

**BOX2:**  
1x Front Door, 2x Rear Door

**BOX3:**  
8x Rails, 1x Accessory Box, 4x Pallet Holder

**BOX4:**  
4x Side Panels

**BOX5:**  
1x Top Cover, 1x Bottom Frame, 2x Frame Bar

Accessory Box

**Step 1: Install the four posts**

**Step 2: Put on the top cover (same mounting)**

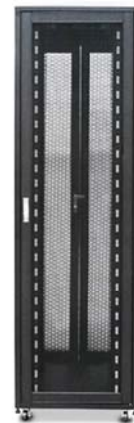

**Step 3: Install the two frame bars and the eight rails**

**Step 4: Install the four scale posts on the rails (position is marked in the picture)**

**Step 5: Install the front door and the rear doors (front door's lock is shorter)**

**Step 6: Install the four side panels to finish the final look.**
