

iStarUSA Launches the xAge-N99-SAU

eSATA/ USB 2.0 to 2.5"/3.5" SATA HDD Docking Station

City of Industry, CA - May 1, 2008 - iStarUSA releases xAge-N99-SAU, 2.5"/3.5" SATA HDD Docking Station. xAge-N99-SAU has SATA to USB 2.0 and SATA to eSATA dual interfaces, which provide not only 480Mbps transfer rate via USB 2.0, also supports better data transfer rate up to 3.0Gbps via eSATA port.

xAge-N99-SAU is designed with a simple and compact idea which offers an easy and convenient way for data backup and recovery, hard drive testing, and fast access to archived hard drives. Also, xAge-N99-SAU is hot-swap capable and is compatible with latest operating systems of Windows, Mac, and Linux.

Just simply plug in the hard drive to the docking station, connect either the USB cable or eSATA cable to the PC, push the power button, and your hard drive is ready to use.
