

EB-445-PM

Casing 180TB in a 4U Form Factor

Pushing the Density of Storage

For you audiovisual gurus, our new EB-445-PM Storage Server Chassis is all about providing huge storage at a reasonable cost. It's able to house 45 3.5" HDD's, translating to 180TB of storage in a space-saving 4U case. Complete with eSATA connections and Port Multiplier functions to support RAID configurations, this EATX case is one of the most economic storage solutions on the market. Also avoid hassles with cable routing because it's equipped with an HDD backplane.

4U 45 3.5" HDD Bays EATX Storage Server Chassis
